SUMMARY STATEMENT

Principled statistical scientist with over a decade of experience at the intersection of AI and statistical innovation. Recognized for pioneering cutting-edge neural networks combined with causal, Bayesian, and experimental design methods that drive more powerful, precise, and efficient insights and decision-making in medicine and manufacturing.

POSITIONS

Santen Inc., Emeryville, CA

Associate Director, Biostatistics	Apr. 2025 -

Purdue University, Department of Statistics, West Lafayette, IN

Associate Member

Regenstrief Center for Healthcare Engineering	Jun. 2022 - Dec. 2022

Associate Professor

	Aug. 2020 - Aug. 2021
	Aug. 2022 - Dec. 2022
	Jan. 2025 - Apr. 2025

Associate Director

Statistical Consulting Service	Jan. 2016 - Aug. 2021
	Jun. 2022 - Dec. 2022

Assistant Professor	Aug. 2014 - Jul. 2020

- Conducted fundamental research on neural networks, Bayesian data analysis, causal inference, and experimental design to solve cutting-edge problems.
- Published 36 peer-reviewed articles, with over 1000 citations and h-index of 16.
- Elected Member of the International Statistical Institute (ISI).
- PI/Co-PI on 15 projects, with total funding nearly $3 million, sponsored by the National Science Foundation, National Institutes of Health, Sandia National Labs, Showalter Trust, Eli Lilly & Company, Johnson & Johnson, and others.
- Supervised 9 PhD students whose employers include Intel, Purdue University, Johnson & Johnson, AstraZeneca, Vertex Pharmaceuticals, Yale University, the University of Washington at Tacoma, and Eli Lilly & Company.
- Served as Faculty Consultant for over 70 projects, and a Mentor for 8 - 10 Student Consultants, per year in the Statistical Consulting Service.

Unlearn.AI, San Francisco, CA

Head of Clinical Methods	Mar. 2023 - Sep. 2024
Head of Biostatistics Research	Jan. 2023 - Feb. 2023

University of California, Berkeley, Department of Statistics, Berkeley, CA

Visiting Scholar	Sep. 2021 - May 2022

Araqev LLC, West Lafayette, IN

President and CEO	Apr. 2020 - Dec. 2022

- Led the development of the software solution AMapi that applies patented AI algorithms to reduce reprints by 70% and triple throughput in AM systems.
- Managed projects with Rockwell Automation and other companies under NDAs.
- Established that AMapi saves $10,000 per user of an AM system per week.

EDUCATION

Harvard University, Cambridge, MA
PhD, Statistics, May 2014
AM, Statistics, May 2011
- Thesis: *Dilemmas in Design: From Neyman and Fisher to 3D Printing*
- Advisors: Donald B. Rubin and Tirthankar Dasgupta
- National Science Foundation (NSF) Graduate Research Fellow

Purdue University, West Lafayette, IN
BS, Mathematics (with Honors), May 2009
BS, Mathematical Statistics, May 2009
- Graduated *With Highest Distinction*
- Phi Beta Kappa (2008)

AWARDS

Winner of the Best Application Paper
Awarded by the 2024 Institute of Industrial and Systems Engineering (IISE) Annual Conference & Expo
Recognizes the Best Applications Paper in the 2023 IISE Transactions Focus Issues on Design and Manufacturing. The paper recognized by this award is "Reconstructing original design: Process planning for reverse engineering", and was written by Dr. Zhaohui Geng, Dr. Sabbaghi, and Dr. Bopaya Bidanda.

Winner of a Seed for Success Acorn Award
Awarded by Purdue University (2022)
Awarded to investigators in recognition of their accomplishment in obtaining an external sponsored award of $1 million or more.

Elected Member of the International Statistical Institute
Awarded by the International Statistical Institute (2020)
Awarded to those who are established in their careers and have made significant contributions to the statistical profession.

Winner of a Trask Innovation Fund Award
Awarded by the Trask Innovation Fund (2020)
A development program that supports faculty-led projects that advance the commercial value of Purdue University intellectual property. The Trask Innovation Fund makes awards twice a year to aid faculty and staff with their patented innovations that are being commercialized through Purdue University's Office of Technology Commercialization. The technology recognized by this award is "AMapi: An API for Additive Manufacturing Systems".

Winner of the AHFE 2019 Best Paper Award
Awarded by the 2019 International Conference on Applied Human Factors and Ergonomics (AHFE) and its Affiliated Conferences
Recognizes the top four groups of researchers who submitted papers for the 2019 International Conference on AHFE and its Affiliated Conferences. The paper recognized by this award is "Modeling In-Plane Deviations of Shapes to Come Based on Prior Deviation Features in Additive Manufacturing", and was written by Dr. Sabbaghi.

Outstanding Assistant Professor Teaching Award
Awarded by the Purdue University Department of Statistics (2019)
Recognizes the teaching accomplishments of a tenure-track assistant professor.

Finalist for the Data Mining Section Best Theoretical Paper Award
Awarded by the Data Mining Section of INFORMS (2018)

Recognizes the top four groups of researchers who submitted papers to the Data Mining Section Best Theoretical Paper Award Competition at the 2018 INFORMS Annual Meeting. The paper recognized by this award is "Predictive Comparisons for Screening and Interpreting Inputs in Machine Learning", and was written by Dr. Raquel De Souza Borges Ferreira and Dr. Sabbaghi.

Winner of the QSR Section Best Student Paper Award
Awarded by the Quality, Statistics, Reliability (QSR) Section of INFORMS (2018)
Recognizes the top group of researchers, consisting of a doctoral student, their advisor(s), and other collaborators, who submitted a paper to the QSR Section Best Student Paper Award Competition at the 2018 INFORMS Annual Meeting. The paper recognized by this award is "Predictive Comparisons for Screening and Interpreting Inputs in Machine Learning", and was written by Dr. Raquel De Souza Borges Ferreira and Dr. Sabbaghi.

Regina and Norman F. Carroll (Col. USAF) Scholarship & Research Award
Awarded by the Purdue University Department of Statistics (2017)
Recognizes faculty members whose research represent distinctive contributions to statistical science.

Diversity Award
Awarded by the Purdue University College of Science (2017)
Recognizes excellence in leadership that improves the environment for faculty, staff, and students and promotes diversity and inclusiveness in the College of Science.

Finalist for the QSR Section Best Paper Award
Awarded by the Quality, Statistics, Reliability (QSR) Section of INFORMS (2016)
Recognizes the top four groups of researchers who submitted papers to the QSR Section Best Paper Award Competition at the 2016 INFORMS Annual Meeting. The paper recognized by this award is "Model Transfer via Equivalent Effects of Lurking Variables", and was written by Dr. Sabbaghi and Dr. Qiang Huang.

Early Career Scholarship
Awarded at the 22nd Annual ASA/IMS Spring Research Conference (2015)
Awarded to early career researchers (within five years of degree) in recognition of their research potential.

GRANTS

PI for the 2022 North Carolina Chapter of the American College of Cardiology Grant ($20,000): *Leveraging Artificial Intelligence to Prevent Disparities in Percutaneous Coronary Interventional Outcomes in a Diverse, High-Risk North Carolina County.* 9/2022 - 9/2023.

Co-PI Statistician for NIH Grant No. R01HS028026-01A1: *Wearable Sensors for Modeling and Assessing Non-Technical Skills in Surgery.* 9/2022 - 8/2026. Lead PI: Denny Yu, Purdue University, West Lafayette, IN. Total Funding: $321,821.

PI for Janssen Research and Development Research Agreement ($10,000): *Bayesian Methodologies Under the Tripartite Estimands Framework.* 9/2021 - 9/2022.

Co-PI Statistician for NIH Grant No. 1R01HD106413-01: *Multi-Site, Longitudinal Trial Evaluating the Efficacy, Mechanisms, and Moderators of Service Dogs for Military Veterans with PTSD.* 9/2021 - 8/2026. Lead PI: Marguerite O'Haire, Purdue University, West Lafayette, IN. Total Funding: $674,582.

PI for Eli Lilly and Company Research Agreement ($45,000): *Tripartite Estimands for Adherence Causal Inference in Clinical Trials.* 5/2021 - 12/2021.

Co-PI for NSF Grant No. CMMI-1762698: *Scalable Nanomanufacturing of Large-area Two-dimensional Tellurene for High-performance Wearable Piezoelectric Devices.* 5/2020 - 9/2021. Lead PI: Wenzhuo Wu, Purdue University, West Lafayette, IN. Other Co-PI: Peide Ye, Purdue University, West Lafayette, IN. Total Funding: $546,906.

PI for Sandia National Laboratories LDRD Grant No. 1701331 ($200,000): *A Statistical Analysis and Improvements to the TCARSS Synthetic Dataset Generation Methods.* 10/2019 - 9/2021.

Co-PI Statistician for NIH Grant No. 1R21EB026177-01A1: *Real-Time Non-Intrusive Workload Monitoring-Integration of Human Factors in Surgery Training and Assessment.* 9/2019 - 6/2021. Lead PI: Denny Yu, Purdue University, West Lafayette, IN. Total Funding: $404,706.27.

Co-PI Biostatistician for Showalter Trust Grant: *Mechanisms Underlying Tendon Dysfunction Associated with Diabetes.* 7/2019 - 6/2020. Lead PI: Chad Carroll, Purdue University, West Lafayette, IN. Total Funding: $73,205.

Co-Investigator Statistician for International Manganese Institute Grant: *Can Toenail Mn Levels Predict Brain Mn Levels?* 9/2018 - 8/2019. Lead PI: Ulrike Dydak, Purdue University, West Lafayette, IN. Total Funding: $29,286.

PI for Purdue University ITaP Explanatory Modeling Project Grant ($193,593): *Propensity Score Methods for Improved Explanatory Analyses with Forecast.* 8/2018 - 7/2022.

PI for NSF Grant No. CMMI-1744123 ($50,000): *Collaborative Research: EAGER: Explore the Theoretical Framework of Engineering Knowledge Transfer in Cybermanufacturing Systems.* 8/2017 - 7/2018. Lead PI: Qiang Huang, University of Southern California, Los Angeles, CA ($49,998). Other PIs: Matthew Plumlee, Northwestern University, Evanston, IL ($29,890) and Hui Wang, Florida State University, Tallahassee, FL ($29,999).

Co-PI Statistician for NIH Grant No. 1R21HD091896-01: *Quantifying the Efficacy and Role of Service Dogs for Military Veterans With PTSD and Their Spouses.* 5/2017 - 4/2020. Lead PI: Marguerite O'Haire, Purdue University, West Lafayette, IN. Total Funding: $414,880.

PI for NSF Grant No. CMMI-1544841 ($299,952): *CPS: Synergy: Collaborative Research: Smart Calibration Through Deep Learning for High-Confidence and Interoperable Cyber-Physical Additive Manufacturing Systems.* 9/2015 - 8/2020. Lead PI: Qiang Huang, University of Southern California, Los Angeles, CA ($350,000).

Purdue University Research Foundation International Travel Grant ($1,400). 8/2015.

NSF Graduate Research Fellowship, NSF Grant No. DGE-1144152. 9/2011 - 5/2014.

PATENTS	System and Method for Automated Geometric Shape Deviation Modeling for Additive Manufacturing. Patent Number 11,150,633. Submitted May 2019, Published October 2021.

DOCTORAL
ADVISORY
COMMITTEE
CHAIR

Daniel Cardona (Co-Chair) (2024)

Yueyun Zhang (Co-Chair) (2024), Statistician at Eli Lilly & Company

David Arthur (Co-Chair) (2024), currently Assistant Professor of Statistics in the Division of Sciences and Mathematics at the University of Washington, Tacoma

Yuki Ohnishi (Co-Chair) (2024), currently Postdoctoral Researcher at Yale University

Yumin Zhang (2022), currently Senior Biostatistician II at Vertex Pharmaceuticals

Wenbin Zhu (2022), currently Senior Statistician at AstraZeneca

Ahmad Hakeem Abdul Wahab (2021), currently Principal Statistician at Johnson & Johnson Innovative Medicine

Timothy Jedidiah Keaton (2019), currently Assistant Professor of Practice in the Department of Statistics at Purdue University

Raquel De Souza Borges Ferreira (2019), currently Data Scientist at Intel

DOCTORAL
ADVISORY
COMMITTEE
MEMBER

Jorge Loria (2024), currently a Postdoctoral Researcher in the Finnish Center for Artificial Intelligence in Aalto University, working with Professor Samuel Kaski on Bayesian neural networks

Yiran Jiang (2023), currently a Postdoctoral Associate at Yale University

Sehwan Kim (2023), currently a Postdoctoral Research Fellow at Harvard Medical School

Clare Jensen (2023, Purdue University Department of Comparative Pathobiology)

Lily Darbishire (2022, Purdue University Department of Nutrition Science), currently Senior Research Associate at Purdue University

Zhaohui Geng (2021, University of Pittsburgh Department of Industrial Engineering), currently Assistant Professor in the Department of Industrial and Systems Engineering at the University of Ohio

Jialei Chen (2021, Georgia Institute of Technology H. Milton Stewart School of Industrial and Systems Engineering), currently Senior Researcher at Microsoft

Will Eagan (2020), currently Principal Biostatistician at Vertex Pharmaceuticals

Jack Francis (2020, Mississippi State University Department of Industrial and Systems Engineering), currently AI Solutions Director at Davidson Technologies

Hui Sun (2019), currently Principal Statistical Consultant at Novartis

He Luan (2018, University of Southern California Epstein Department of Industrial and Systems Engineering), currently Software Engineer at Google

Whitney Huang (2017), currently Assistant Professor in the School of Mathematical and Statistical Sciences at Clemson University

PROFESSIONAL
SERVICE

Council Member of the International Society for Business and Industrial Statistics (IS-BIS) of the International Statistical Institute (ISI).

2026 Chair of the Physical and Engineering Sciences (est. 1954) SPES/SPQP Section of the American Statistical Association.

General Conference Chair of the 2023 Fall Technical Conference.

Co-Organizer and Chair of the SPES+Q&P Student Paper Competition at the 2023 Joint Statistical Meetings (2023 JSM).

Organizer and Chair of the ML/AI for Fairness, Transparency, and Interpretability invited session at the 2022 INFORMS Annual Meeting.

Organizer and Chair of the Advances in Machine Learning and Statistics for the Automotive Industry invited session at the 2022 INFORMS Annual Meeting.

Chair of the Case Studies from the International Statistical Engineering Association invited session at the 2022 INFORMS Annual Meeting.

Panelist on the SPES Special Panel Session for the 2022 Fall Technical Conference.

Moderator of the Text Mining invited session for the 2022 Fall Technical Conference.

Co-Organizer and Chair of the Advances in Active Learning invited session at the 2022 International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC 2022).

Chair of the 2022 QSR INFORMS Best Case Study Paper Competition.

Co-Chair of the 2022 QSR INFORMS Data Challenge Competition.

Member of the Program Committee for the 2023 Annual ASA/IMS Spring Research Conference on Statistics in Industry and Technology.

2022 Program Chair of the Physical and Engineering Sciences (est. 1954) SPES/SPQP Section of the American Statistical Association.

Member of the Scientific Program Committee for the 2022 International Conference on Advances in Interdisciplinary Statistics and Combinatorics (AISC 2022)

Chair of the Spectral Analysis, Process Monitoring, and Sampling Contributed Paper session at the 2022 Joint Statistical Meetings.

Guest Editor in the AISC-2021 Special Collection Issue of *Journal of Statistical Theory and Practice* from 2021 - 2022.

Associate Editor in the Focus Issue of Data Science, Quality and Reliability of *IISE Transactions* in 2022.

Organizer and Moderator of the Applying for SBIR/STTR Grants panel at the 2021 INFORMS Annual Meeting.

Organizer and Moderator of the Fundamentals of Start-Ups panel at the 2021 INFORMS Annual Meeting.

Organizer and Moderator of the Challenging Research Problems in the Automotive Industry panel at the 2021 INFORMS Annual Meeting.

Organizer and Chair of the Advances in Statistics and Reliability for Industry and Government invited session at the 2021 INFORMS Annual Meeting.

Co-Chair of the 2021 QSR INFORMS Data Challenge Competition.

Member of the Program Committee for the 2022 Annual ASA/IMS Spring Research Conference on Statistics in Industry and Technology (canceled due to COVID).

Council Member of the Quality, Statistics, Reliability (QSR) section of INFORMS.

Panel reviewer for the National Science Foundation SBIR/STTR program.

Director of the Purdue University Statistical Consulting Service.

Associate Director of the Purdue University Statistical Consulting Service.

Panelist in the QSR Student Introduction and Interaction and Best Student Poster Competition session at the 2020 INFORMS Virtual Annual Meeting.

Organizer and Chair of the Recent Developments Multi-Armed Bandits and Reinforcement Learning for Online Experiments invited session at the 2020 INFORMS Virtual Annual Meeting.

Organizer and Chair of the Improving Machine Learning Algorithms for Causal Inference invited session (a joint Data Mining and QSR session) at the 2019 INFORMS Annual Meeting.

Organizer and Chair of the Machine Learning for Advanced Manufacturing invited session at the 2019 INFORMS Annual Meeting.

Co-Chair of the 2019 INFORMS QSR Section Best Paper Award Competition.

Organizer and Chair of the Machine Learning Algorithms Assisted by Design Concepts invited session at the 2019 Design and Analysis of Experiments (DAE 2019) Conference.

Organizer and Chair of the Developments in Additive Manufacturing Systems invited session (a joint QSR and Data Mining session) at the 2018 INFORMS Annual Meeting.

Reviewer for the 2018 INFORMS QSR Best Paper Award and Best Student Paper Award Competitions.

ASA Section of Statistics in the Physical and Engineering Sciences (SPES) Representative for the Spring Research Conference in 2018 - 2019.

Chair of the Precision Medicine invited session at the Ninth International Purdue Symposium on Statistics.

Referee for the 46th SME North American Manufacturing Research Conference.

Organizer and Chair of the Developments in Bayesian Data Analysis invited session at the 2017 INFORMS Annual Meeting.

Organizer and Chair of the Predictive Modeling and Quality Control for Additive Manufacturing invited session at the 24th Annual ASA/IMS Spring Research Conference on Statistics in Industry and Technology.

Chair of the New Paradigms and Approaches in Modern-Day Process Monitoring contributed session at the 24th Annual ASA/IMS Spring Research Conference on Statistics in Industry and Technology.

President of the Zeta of Indiana Chapter of Phi Beta Kappa from March 2017 - July 2019.

Co-Organizer and Co-Chair of the Foundations of Accuracy for Additive Manufacturing invited session at the 2016 INFORMS Annual Meeting.

Pre-Doctoral Mentor for the National Math Alliance for Doctoral Studies in the Mathematical Sciences.

Panel reviewer for the National Science Foundation.

Chair of the Recent Developments of Bayesian High Dimensional Modeling, Inference, and Computation invited session at the 2016 ICSA Applied Statistics Symposium.

Vice President of the Zeta of Indiana Chapter of Phi Beta Kappa from March 2016 - February 2017.

Co-Organizer and Co-Chair of the Predictive Modeling and Control of Additive Manufacturing special session at the Twelfth Annual IEEE International Conference on Automation Science and Engineering.

Co-Organizer and Discussant of the Powerful Experimental Designs for Non-Gaussian Responses invited session at the 2016 Joint Statistical Meetings.

Organizer and Chair of the Statistical Methods in 3D Printing invited session at the 23rd Annual ASA/IMS Spring Research Conference on Statistics in Industry and Technology.

Co-Chair of the Predictive Modeling and Control for Additive Manufacturing invited session at the 2015 INFORMS Annual Meeting.

Organizer and Chair of the Developments in Design invited session at the 32nd Quality & Productivity Research Conference.

Invited reviewer for *Chapman & Hall/CRC Press*, *IEEE Transactions on Automation Science and Engineering*, *Journal of the American Statistical Association*, *Journal of Quality Technology*, *Journal of Statistical Planning and Inference*, *Journal of Statistical Theory and Practice*, *Nanotechnology and Precision Engineering*, *Engineering Reports*, *Procedia Manufacturing*, *Sankhya B*, *Statistica Sinica*, *Technometrics*, *The American Statistician*, the Eleventh Annual IEEE International Conference on Automation Science and Engineering, the Twelfth Annual IEEE International Conference on Automation Science and Engineering, and the 2018 INFORMS QSR Section Best Paper Award Competition.

Committee member for the Institute of Mathematical Statistics Young Researcher Group.

Chair of the Operations Management in Manufacturing contributed session at the 2013 INFORMS Annual Meeting.

TEACHING EXPERIENCE
Purdue University, West Lafayette, IN
Associate Professor
- Statistics 695: Causal Inference Under the Rubin Causal Model (January 2025 – May 2025)
- Statistics 699: Research PhD Thesis (August 2022 – December 2022)
- Statistics 656: Bayesian Data Analysis (August 2022 – December 2022)
- Statistics 699: Research PhD Thesis (January 2022 – May 2022)
- Statistics 598: Causal Inference (January 2022 – May 2022)
- Statistics 699: Research PhD Thesis (August 2021 – December 2021)
- Statistics 699: Research PhD Thesis (January 2021 – May 2021)
- Statistics 695: Causal Inference Under the Rubin Causal Model (January 2021 – May 2021)
- Statistics 598: Design, Bayes, and Causal (January 2021 – May 2021)
- Statistics 597: Statistical Consulting Seminar (January 2021 – May 2021)
- Statistics 582: Statistical Consulting and Collaboration (January 2021 – May 2021)
- Statistics 515: Statistical Consulting and Collaboration (January 2021 – May 2021)
- Statistics 699: Research PhD Thesis (August 2020 – December 2020)
- Statistics 695: Bayesian Data Analysis (August 2020 – December 2020)
- Statistics 598: Design, Bayes, and Causal (August 2020 – December 2020)
- Statistics 597: Statistical Consulting Seminar (August 2020 – December 2020)
- Statistics 515: Statistical Consulting and Collaboration (August 2020 – December 2020)

Assistant Professor
- Statistics 699: Research PhD Thesis (January 2020 – May 2020)
- Statistics 598: Design, Bayes, and Causal (January 2020 – May 2020)
- Statistics 597: Statistical Consulting Seminar (January 2020 – May 2020)
- Statistics 582: Statistical Consulting and Collaboration (January 2020 – May 2020)
- Statistics 515: Statistical Consulting and Collaboration (January 2020 – May 2020)
- Statistics 190: Institute Assess Data Mine (January 2020 – May 2020)
- Statistics 699: Research PhD Thesis (August 2019 – December 2019)
- Statistics 695: Bayesian Data Analysis (August 2019 – December 2019)
- Statistics 692: Statistics General Colloquium (August 2019 – December 2019)
- Statistics 598: Design, Bayes, and Causal (August 2019 – December 2019)
- Statistics 190: Institute Assess Data Mine (August 2019 – December 2019)
- Statistics 699: Research PhD Thesis (June 2019 – August 2019)
- Statistics 699: Research PhD Thesis (January 2019 – May 2019)
- Statistics 598: Design, Bayes, and Causal (January 2019 – May 2019)
- Statistics 513/IE 530: Statistical Quality Control (January 2019 – May 2019)
- Statistics 699: Research PhD Thesis (August 2018 – December 2018)
- Statistics 695: Bayesian Data Analysis (August 2018 – December 2018)
- Statistics 598: Design, Bayes, and Causal (August 2018 – December 2018)
- Statistics 699: Research PhD Thesis (June 2018 – August 2018)

- Statistics 699: Research PhD Thesis (January 2018 – May 2018)
- Statistics 598: Design, Bayes, and Causal (January 2018 – May 2018)
- Statistics 699: Research PhD Thesis (August 2017 – December 2017)
- Statistics 695: Bayesian Data Analysis (August 2017 – December 2017)
- Statistics 598: Design, Bayes, and Causal (August 2017 – December 2017)
- Statistics 699: Research PhD Thesis (June 2017 – August 2017)
- Statistics 699: Research PhD Thesis (January 2017 – May 2017)
- Statistics 598: Design, Bayes, and Causal (January 2017 – May 2017)
- Statistics 699: Research PhD Thesis (August 2016 – December 2016)
- Statistics 695: Bayesian Data Analysis (August 2016 – December 2016)
- Statistics 598: Design, Bayes, and Causal (August 2016 – December 2016)
- Statistics 490: Experimental Design (August 2016 – December 2016)
- Statistics 699: Research PhD Thesis (June 2016 – August 2016)
- Statistics 598CI: Topics in Causal Inference (June 2016 – August 2016)
- Statistics 699: Research PhD Thesis (January 2016 – May 2016)
- Statistics 490: Experimental Design (August 2015 – December 2015)
- Statistics 692: Statistics General Colloquium (January 2015 – May 2015)
- Statistics 513/IE 530: Statistical Quality Control (January 2015 – May 2015)

Harvard University, Cambridge, MA

Teaching Fellow

- Statistics 140: Design of Experiments (January 2013 – May 2013)
  - Awarded a Certificate of Distinction in Teaching by Harvard University's Derek Bok Center for Teaching and Learning.
- Statistics 104: Introduction to Quantitative Methods for Economics (September 2010 – May 2011)
- Statistics S-100: Introduction to Quantitative Methods (June 2010 – August 2010)

Guest Lecturer

- Statistics 221: Statistical Computing and Visualization (February 13, 2013)
  - Presented a real-life example of Bayesian nonlinear regression model building and checking for quality control in additive manufacturing.

Contributor to Course Construction

- Statistics 265: Statistical Mathematics (Graduate Seminar in General Education) (January 2012 – May 2012)
  - Helped develop a General Education course for Harvard University undergraduates that interweaves calculus, probability, and statistics.
  - Wrote Chapter 6 of the course textbook (in collaboration with Carolyn Stein and Jessica Hwang) on connections between the Fundamental Theorem of Calculus and statistical concepts.
- Statistics 305: Statistical Fallacies and Paradoxes: A Cartoon Guide (Graduate Seminar in General Education) (September 2009 – December 2009)
  - Helped develop a module on Simpson's paradox and the ecological fallacy for use in Harvard University's General Education course EM 16: Real-Life Statistics: Your Chance for Happiness (or Misery).
  - Researched the historical origin of Simpson's paradox and the ecological fallacy, and major milestones in their development.
  - Summarized findings from both research and pedagogical perspectives, with an emphasis on the interplay between different disciplines, and between academia and the general public's interests in its development.
  - Prepared a "cartoon guide" of slides with pictures and diagrams to illustrate the key ideas in the most intuitive, insightful, and interesting ways possible.

- Submitted a paper summarizing the research, and suggested homework questions and group project for Harvard University General Education students.

Purdue University, West Lafayette, IN
Teaching Assistant

- Mathematics 450: Honors Galois Theory (January 2009 – May 2009)
- Statistics 416: Probability (January 2007 – May 2007)
- Statistics 301: Elementary Statistical Methods (January 2007 – May 2007)
- Statistics 225: Introduction to Probability Models (August 2006 – December 2006)
